

Bibetta supplies UltraBibs to Findel Education Resources

Bibetta is delighted to be supplying the UK's leading educational resources supplier, Findel, with their award winning neoprene bibs for UK and international schools and nurseries. The UltraBib's unrivalled benefits of excellent durability, easy clean neoprene and superb softness and comfort for children makes them ideal for professional institutions and childminders as well as regular mums and dads.

Findel, established in 1817, supplies well loved brands, including over 25,000 educational supplies, through a range of specialist brand catalogues to nurseries and schools throughout the UK and exports to over 150 countries worldwide. They pride themselves in offering best in class, quality, service, choice and value. Bibetta's bibs exceeded every safety test requested by Findel.

Findel have selected Bibetta's full range of colorful UltraBibs and Sleeved UltraBibs with Owls, Butterflies, Birds and Fish patterns, all of which have the famous, flip-out neoprene pocket, which children love as it feels soft and is springy, so it always catches dropped food!

The Sleeved UltraBibs boast the most waterproof and toughest sleeve material on any bib, made of three layers with a properly waterproof barrier bonded inside, so kids can get really messy and still stay clean and dry! The UltraBibs are all made with high quality neoprene (wetsuit material) which also has a fully waterproof inside layer of sponge rubber for great protection from spilt food and drinks.

Bibetta, a family run company based in Cambridge, designs and manufactures other stylish and innovative children's products including their novel Placemat with Pocket, Burp Cloth with Pockets, Folding Star Changing Mat, Baby Play Mats and Pleated Dribble Bibs.
